Per count = fee to be paid for every reservation

Booking duration
- The tools can be booked for a maximum of 8 (eight) hours per week in the weekdays from 9:00 AM until 6:00 PM.
- The tools can be booked for a maximum of 3 (three) hours per day in the weekdays from 8:00 AM until 8:00 PM.
- There is no limit for the booking length outside that time and in weekends. It is also allowed to book beyond 3 hours if the reservation begins in the central hours (e.g. from 5:00 PM to 8:00 PM).

Reservation fees
- An additional “per count” (or reservation) fee is included for each booking (EBL only).

Cancellation and modification policy
- Users can cancel their reservations at any time. However, if the cancellation is done less than 24 hours in advance from the starting time of the reservation, the “per count” fee will be invoiced. The cancelled hours will not be invoiced. Please inform the other users when you cancel your reservation.
- The user can modify the duration of his/her booking (within the duration limits specified above) at any time. Only the hours booked will be invoiced.
- A user can transfer reservation slots to other users without cancelling or modifying the reservation. Be aware that the original user/group who made the reservation will be invoiced in this case.
- Special cancellations or modifications due to technical issues with the tool itself should be reported to the technical staff at Quantech (zhe.liu@nbi.ku.dk).

Training
First-time users require a training for both SEM and EBL. The training can be arranged with Zhe Liu (zhe.liu@nbi.ku.dk).

- Training consists of 3 sessions of approximately 2 hours each.
- If, at the end of the training session, the user is unable to use the tool independently, additional training sessions will be scheduled.
- The price for training is calculated using the normal hourly rate for the tool (incl. reservation fee, if applicable).

**Access to the lab**
- The Quantech lab can be accessed via KU or visitor cards.
- Access is given to users who have successfully passed the training for at least one of the tools.

**General lab rules**
- Keep the lab area clean, do not leave around notebooks, papers, chips/wafers, or any other item which does not belong to the lab. These items will be thrown away.
- No food/drinks allowed.
- Wear shoe covers when entering the lab.

The Quantech technical staff will monitor the usage of the machine and compare it against the booking system. Irregularities will be reported to the Quantech management. The management reserves the right to apply sanctions (up to 3 weeks ban) to users who fail to comply with the above rules.
